The Industrial Arts program at Woodrow Wilson High School endeavors to introduce the students to various trades and skills that will help them choose a vocation or gain skills that will help them in problem solving in everyday living. Courses are available to all sophomores, juniors, and seniors, girls and boys.

Courses are elective and are usually made up of juniors and seniors, but they are also open to sophomores. Several boys are enrolled in foods and consumer education classes. All departments are the most modern and up-to-date as far as furnishings and equipment concerned. New Singer sewing machines have been purchased for both clothing departments.

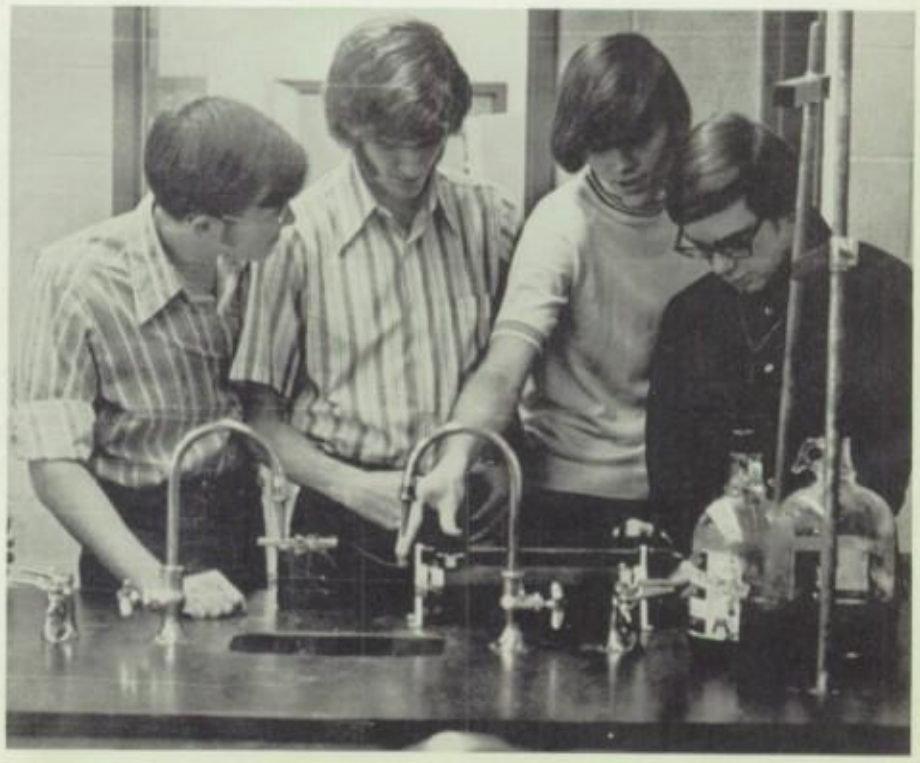
Sciences

BIOLOGY ONE is a basic course oriented strongly toward the laboratory with minimum emphasis on textbooks. It consists of a carefully arranged sequence of laboratory activities, discussions, programs, and reviews designed to help students to learn about the world of living things.

BIOLOGY TWO is designed to give students further study in the preparation and culture and identification of micro-organisms, the functions and anatomy of the systems of the human body, advanced dissections, and genetics.

The Physical Science department of WWHS consists of four conventional chemistry courses, three Chem Studies courses, three conventional physics courses, and two physical science courses. We try to develop and present these courses through lectures, laboratory experiments, and films which are an integral part of these courses.



Ed Lively, Jeff Matherly, Glen Metrick, and Neil Hamrick are conducting a "Jones Experiment."

Math

Mrs. Ratcliffe has just convinced Cathy Billups and Mike Sawyers that 2 + 1 = 4?

The major goals of the mathematics department include the development, within each student's ability, of a desire to search for mathematical knowledge and subsequently, the development of the skills with which the student may use this knowledge.

The program is of two types: For the non-college bound, a consumer arithmetic class is offered. For the college bound, a program of basic mathematics requirements is offered — namely, Algebra I, II, and III, geometry, and trigonometry. In addition, there is a computer science program of basic mathematics and science problems in two languages — FORTRAN and BASIC. Through ESEA, Title III, the students have daily use of computer services at the LRC Computer Center at Bluefield State College.

"If you guys want to wrestle join the wrestling team, but don't monkey around in my class!"

This year the Girl's Physical Education Department is trying something new. Girls trade teachers this year instead of having each teacher teach everything. This way each teacher teaches her specialty and the students get the best training possible in all areas. Some of the activities are gymnastics, bowling, volleyball, basketball, and table tennis.

The objectives of business education are to provide the vocational skills and related knowledge required to enable young men and women to enter upon a career or an occupation — not just a job. It seeks to provide the knowledge, attitude, and appreciation so necessary for one to engage in the American economic system. Ours, after all, is a work-oriented society.

In Memoriam

DUSTY LEE HERBERT

For the future — we work, prepare, build, and grow
But what it holds for each — no one knows.
For some, it holds the deepest drudgery and despair,
For others — it will be new challenges and dares.

And just as the oaks by the wind are shaken
So some before their life is full are taken.
But just as the earth is warmed by the continuous sun,
We will not forget those who went on before — no, not one.

MRS. CAROL GODBEY

Amid the spring flowers of April and May a very special feeling of pride and friendship will be felt by those in the senior class. Spring will bring back the memories of all the hard work, time, and energy spent on the '73 junior/senior prom. We won't forget the pastel shades, nor even the butterflies and daisies which made our prom one of the prettiest ever. But behind all the planning and work we had one of the most outstanding teachers in our school. Mrs. Carol Godbey was always there to help and guide. She was the kind of person who was a leader, yet willing to give us a push when things got bogged down. We loved her as a person, a very special person — She was 1974's class sponsor. But near the end of our junior year Mrs. Godbey left Woodrow to further her education. When she left, unhappiness and disappointment seemed to be the promise of our senior year, what we didn't know was that Miss Linda Zorio was going to take her place. Well, the Senior year has flown by and thanks to the help of the two greatest ladies in Woodrow nothing but happiness and fond memories mark 1974's senior year.

MISS LINDA ZORIO

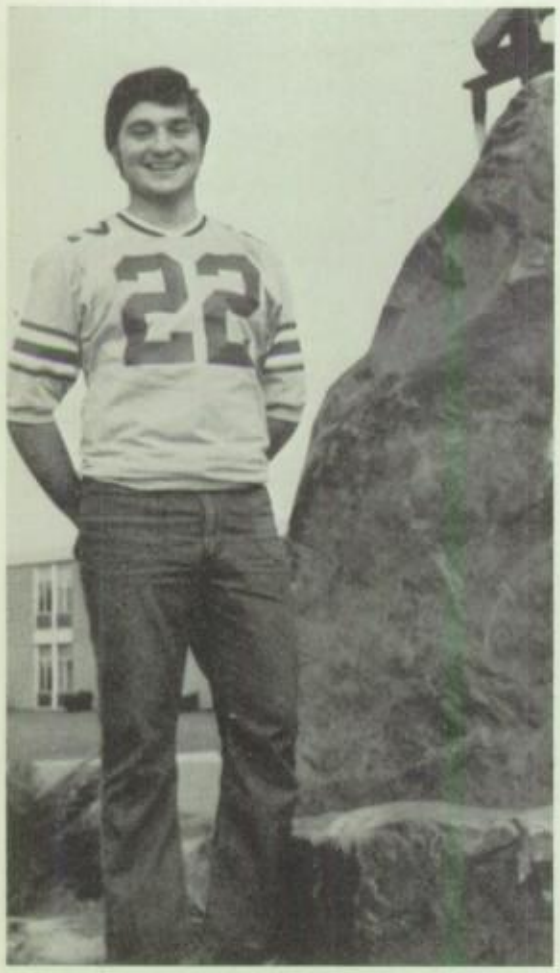
The Woodrow Wilson Flying Eagles



Paul Wheeler
FULLBACK

A 3-yr. letterman, and a member of this year's All-Southern defense, Paul was a linebacker, and offensive fullback.

Beckley	0	Dunbar	6
Beckley	40	Welch	0
Beckley	26	G. East	8
Beckley	34	Charleston	0
Beckley	29	Huntington	6
Beckley	20	Bluefield	6
Bekcley	42	Oak Hill	0
Beckley	41	Logan	0
Beckley	24	H. East	0
Beckley	28	Man	6

With a 9-1 season record, a slim playoff hope ended after the Man game when the results of the Parkersburg and Bridgeport games were heard. But state playoffs or not, the people of Beckley and the students of Woodrow Wilson know who is the best.

Oliver Bradley
SWINGBACK

Oliver, an offensive swingback and defensive halfback, contributed greatly to the Eagle Team. Bradley also returned punts.

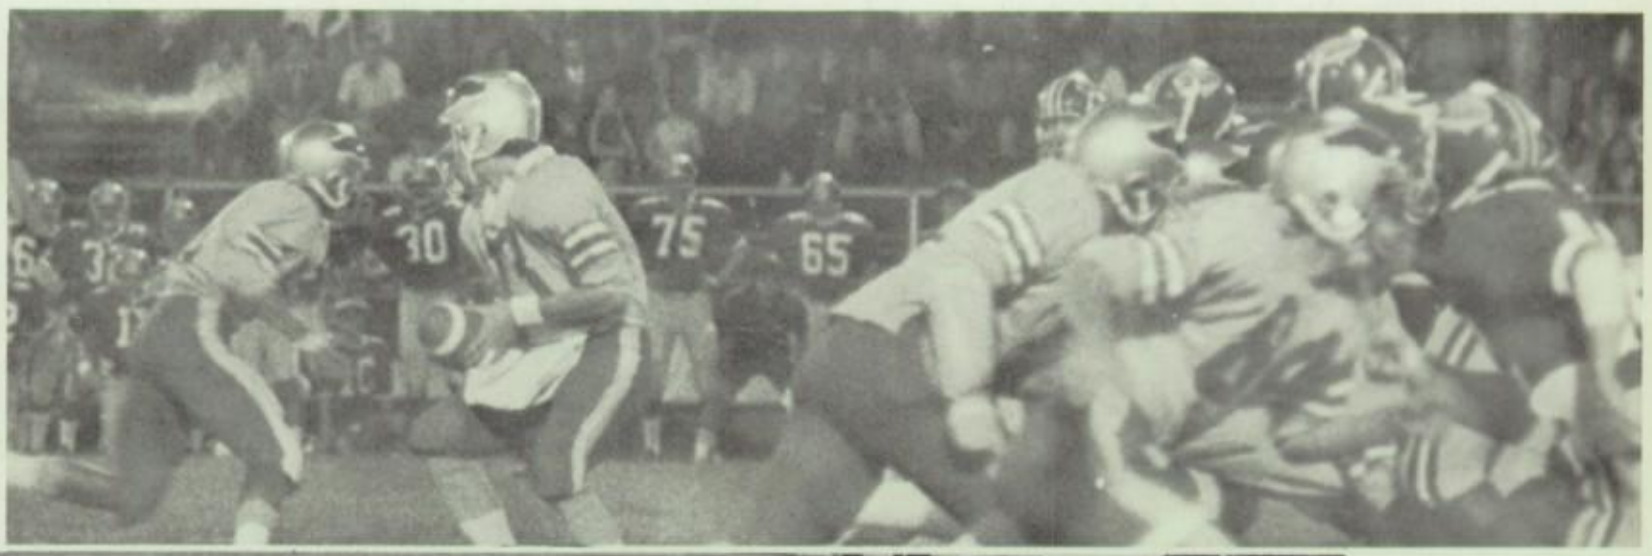
As a tackle for the Flying Eagles, Doug made first string offense on the state's All Southern Team. Lough was also a member of the Eagles' feared defensive line.

Doug Lough
GUARD

Nuts and Bolts?!?

Ed Ford
TAILBACK
Wiry Ed Ford's All-State running in the first quarter sparked the Flying Eagle offense to a 40-0 destruction of Welch.

At work and at play

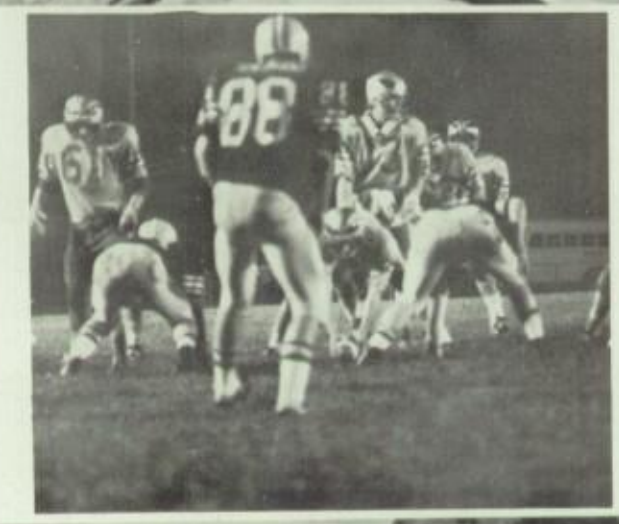


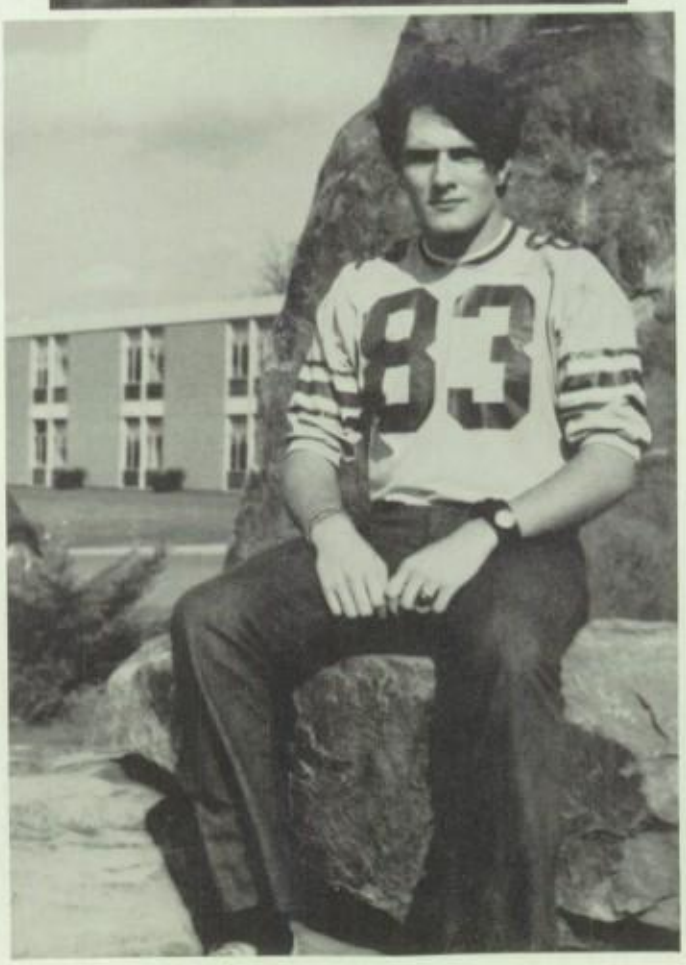
Neil Hambric
FULLBACK

Neil, as a fullback, was an essential member of the Eagles' potent offense.

Ed Culicerto
QUARTERBACK

Ed Culicerto paced the Flying Eagles to their 5th straight triumph of the year, with a 20-6 victory over previously unbeaten Bluefield.





Chip Keatley
SPLIT END

The outstanding, all-around play of Chip Keatley led the Flying Eagles to a strong 2nd half rally in the annual Hall of Fame game, in a 26-8 come from behind win over Greenbriar East.

Richard Phillips
DEFENSIVE END

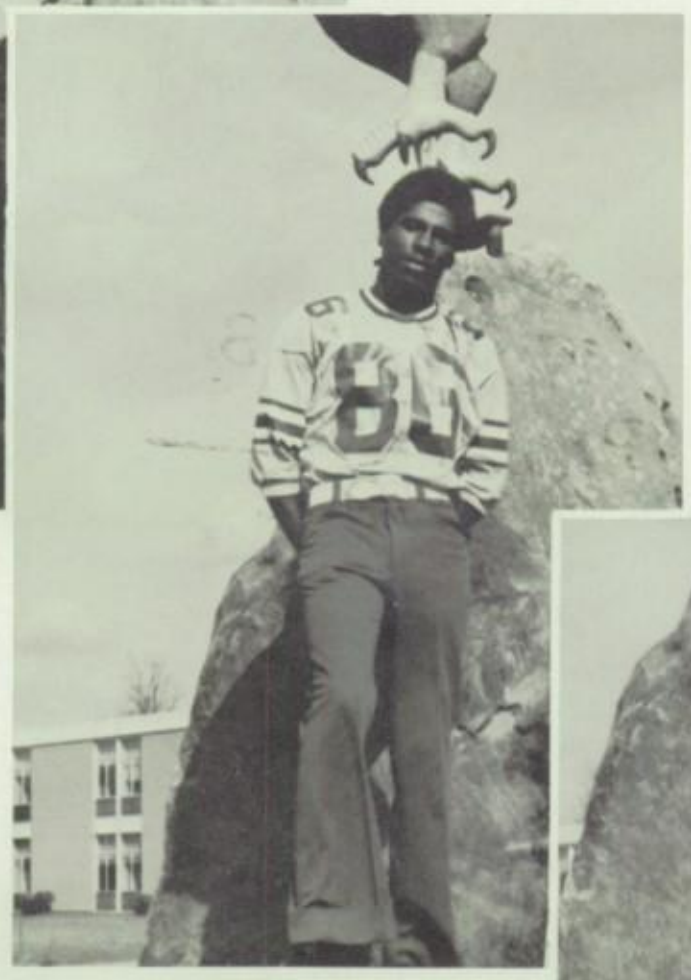
Led by the sensational defensive playing of Richard in the last game; the Eagles finished the season with a 28-6 win over Man.

Karl Klaus
QUARTERBACK

Karl, a back with ability, showed excellence in passing and ball handling.

As an end position, Walter sparked the Eagles with his hard hitting and desire to win.

Walter Hughes
END



Jerome Temple
TIGHT END

Zeuss, often the monster of Beckley's fortful defense, showed much speed and blocking at his offensive position of tight end.

Joe Saunders
LEFT GUARD

A two-year starter at linebacker, Joe has the distinction of being one of the best linebackers to play for Coach Hicks. He saw many All-State runners on their back.

James was also a 2-yr. starter at defense. He is one of the outstanding players that held the "man-eating" Eagle defense together.

James Spreaker
LINEBACKER

Bruce saw action this year as an offensive end. He put a lot of enthusiasm in the 73-74 Beckley Team.

Bruce Trent
END

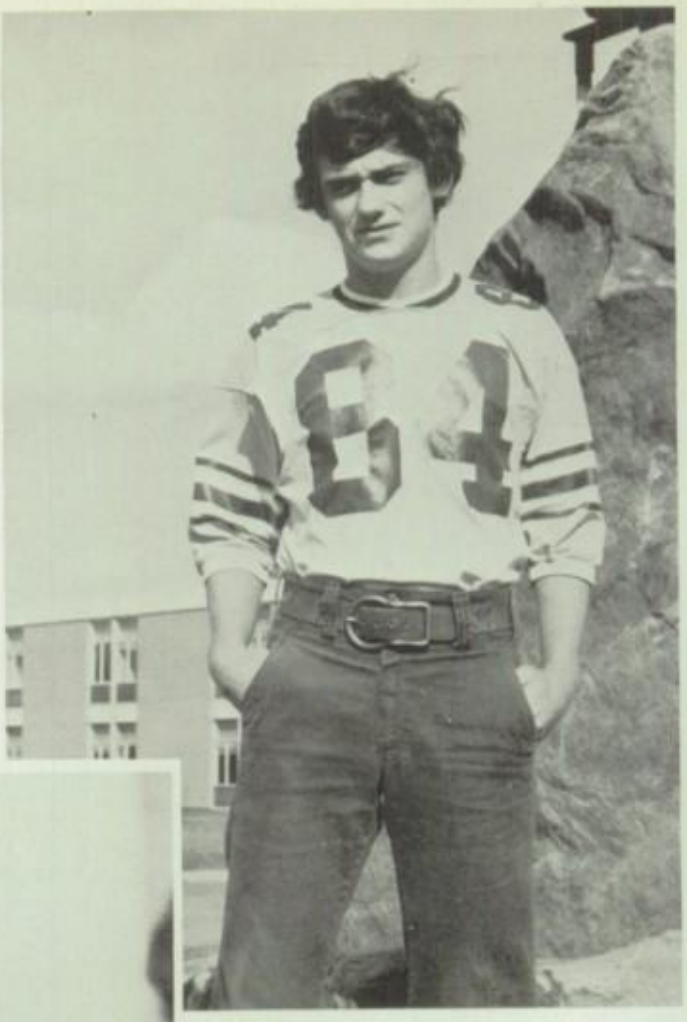
Tim Greer
FULLBACK

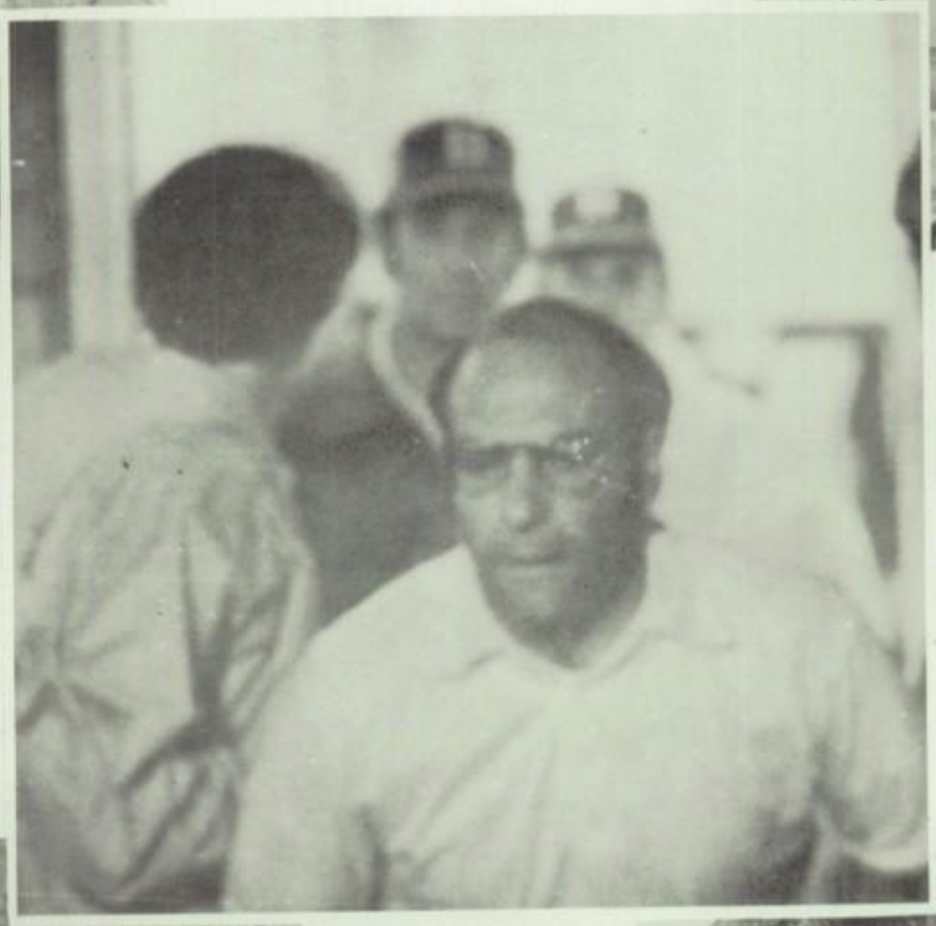
During his senior year, Tim was a great asset to the team as a running back.

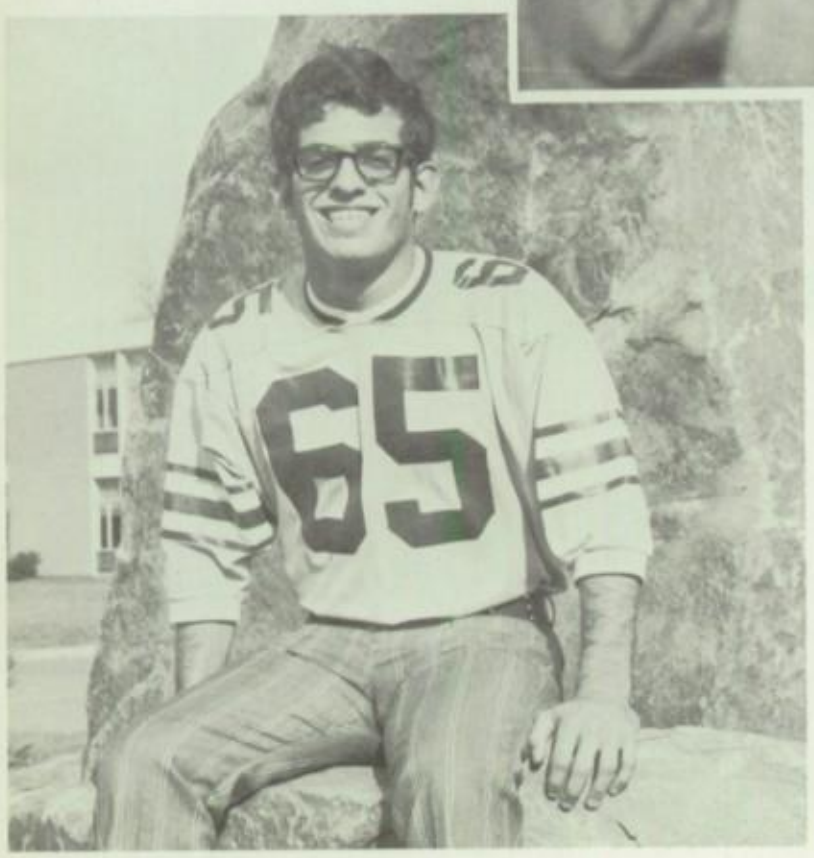
Doug Korczyk
TIGHT END

Doug, with speed and good hands, was a great threat to opposing defensive backs. Doug was also the "monster" of a devastating Eagle defense.

The victory at Oak Hill was the first for Coach Hicks since coming to Beckley in 1969. It also gave him a winning edge over every team he has faced while at Woodrow.





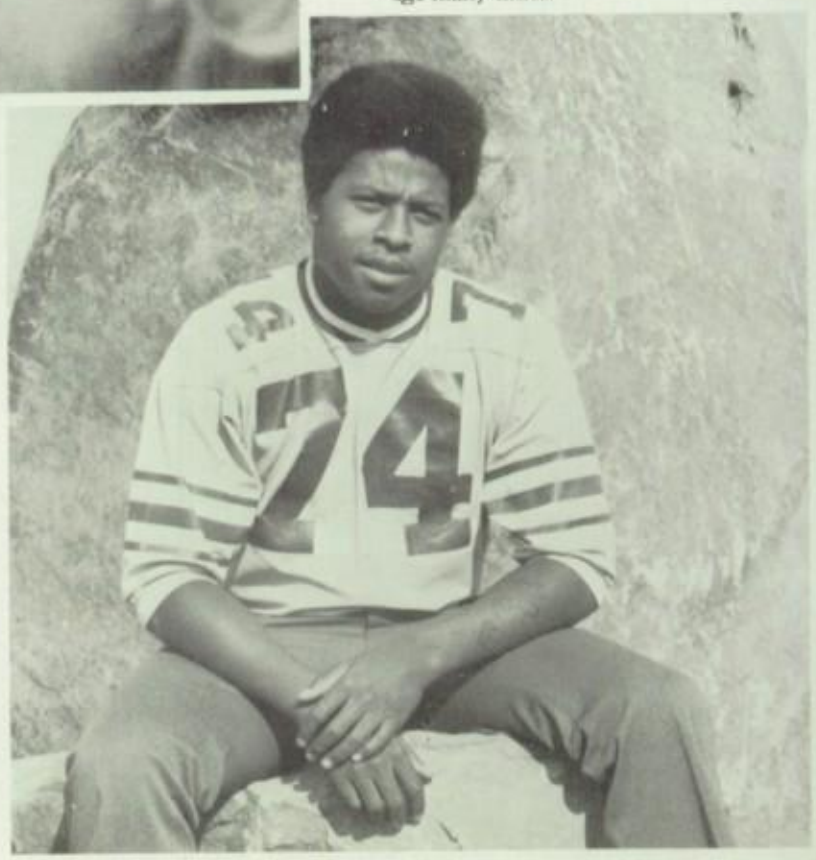


Mike Cipolat
GUARD

As a sophomore Mike was a running back, but his last 2 years saw him progress on the line as a guard.

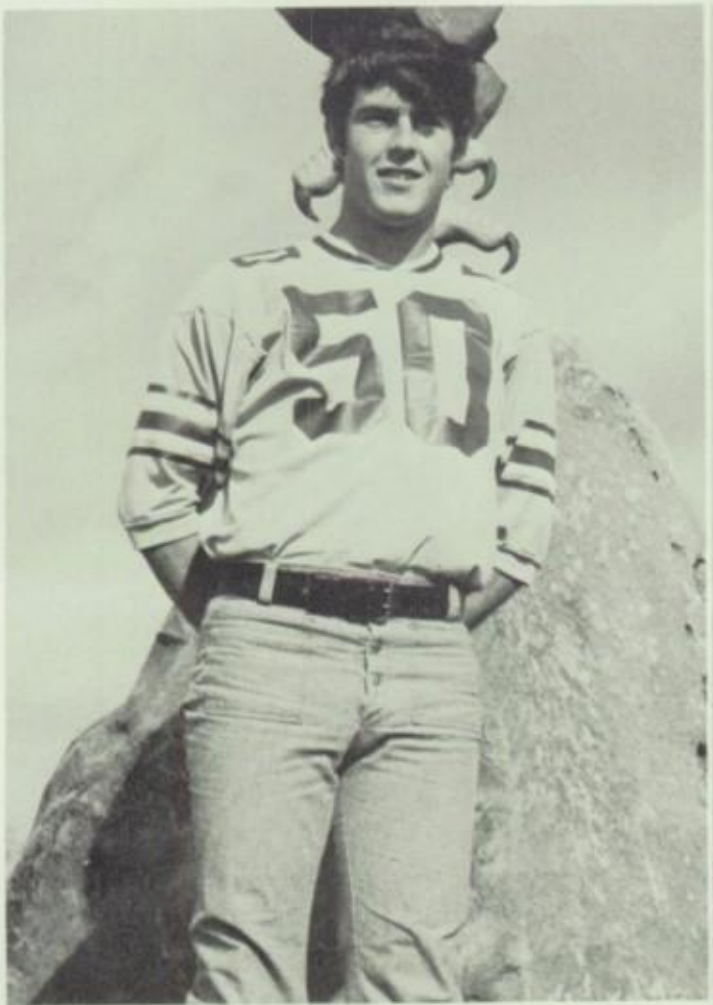
Maurice Boggs
TACKLE

Mo, being big and having speed, dropped the quarterback behind the line of scrimmage many times.



Murrey really did a fine job when it came to moving out All-State nosemen.

Murrey Loflin
CENTER

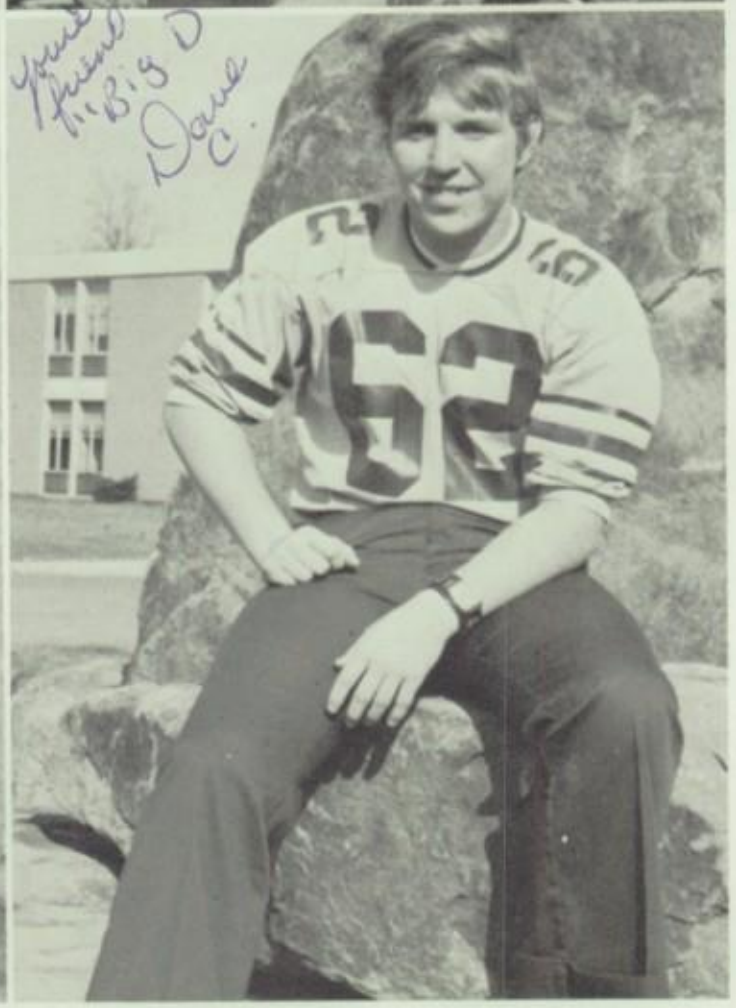


Tom was injured as a sophomore at split end. As a result, he became one of the best kickers Beckley has seen.

Tom Martin
KICKER

Phylander Moon
MONSTER MAN

Phylander was a speciality man, making key tackles on the kick-off team.



Harry Cook
GUARD

Cook, having a great mental attitude, showed dedication and effort as a guard for the Flying Eagles.

Sophomore Squad

Front row: Manuel Rodriguez, Dwayne Cunningham, Norval Woodson, Michael Lewis, Darrell Burton, Harold Glenn, Gary Stover. 2nd row: Coach Munson, James Daniel, Greg Elam, Danny Slipkovich, Byron Witten, Greg Pence, Richard Caldwell, Doug Marshall, Coach Rose. 3rd row: Doug Law, Kent Hartsog, Rick Holland, Greg Tanner, Mark Thornton, Brian Lilly, Charles Branch. 4th row: Coach Culicerto, Fred Wilson, Dave McGlothlin, John Hairston, Frank Hartenstein, Scott Morris, Dallas Bandy, Gary Sweatte, Bernard Johnson, Coach Hicks, Coach Robinson.

When talking of the Eagles' potent offensive tailback, Mike Lewis, only words of acclaim and praise can be used. The 5-6, 135 pound speedster was the only sophomore in Woodrow Wilson's history to rush for 1,000 yards. For his remarkable work this past season, Mike was honored by West Virginia sportswriters, being selected as the only player from Woodrow on the AAA All-State Offensive First Team.

A class prophecy

Ten years from now, when you pick up this annual, you will have access to at least 15 new electric appliances that don't even exist today!

Electrical innovations will "make the scene" (as we say in 1974) to benefit health, education, industry and our social lives. You'll also see in the next decade more electronic equipment to purify, filter, recycle and generally clean up America.

Electricity is doing a lot of things for you now. It's going to do a lot more tomorrow. Our prediction: Life will keep on getting better — electrically.

Roy Lee Harmon

Roy Lee Harmon, Poet Laureate of West Virginia, who lives at 216 Sunrise Avenue in Beckley, has been a staunch supporter of Woodrow Wilson High School since he came to Beckley from Huntington in 1937. He came here to be sports editor of the *Beckley Post Herald,* a position he held for several years. He was and is a great booster for Woodrow Wilson athletic teams and the school band. Twice, many years ago, he raised money to give the band a banquet, pointing out that the band provided as much entertainment as the football team which had an annual banquet. About 25 years ago he wrote the "Flying Eagle March" for the band. The band and orchestra arrangements were by Glenn Sallack, then bandmaster.

Now in semi-retirement, the 73-year-old Poet Laureate was also co-author of "Men of Tomorrow," official Boys' State song.

Born October 7, 1900, in Boone County, Mr. Harmon is a graduate of Scott High School at Madison, and he later attended Morris Harvey College, leaving school to become a newspaperman. Distinguishing himself as a reporter, city editor and columnist, he has long been a contributor of poetry and prose to magazines of national circulation.

More than a decade ago he was honored by the Woodrow Wilson High School faculty and student council at which time he was given a card on which it was stated they were "proud to honor Roy Lee Harmon, a member of the class of every year." The card is time-yellowed now but remains one of Harmon's prize possessions. Three years ago he was given an award of merit by *International Who's Who of Poetry,* London, England, and his picture and biography appeared in the organization's book along with famous poets of the entire world.

He wrote, by request, the poem which sets the theme for this yearbook.

Harmon says: "My great love is poetry. I spent a lifetime writing prose for a pay check — in order to write poetry for the sheer love of it."

We, of the Class of '74, extend our deep appreciation to this great Beckleyan.

THE WOODROW WILSON HIGH SCHOOL CLASS OF '74

A PART OF THE FUTURE

A part of the future where wonders untold
And undreamed of are surely in store,
A part of the magic the years will unfold,
That's the great Class of '74.

Its members will meet every challenge ahead,
They're young, bright and eager today.
By vision and hope and ambition they're led;
These youngsters are well on their way.

A part of the future! oh glorious thought,
The chance to make fantasy live:
This class has a privilege dreamers have sought,
A fine contribution to give.

So here's to the class in a fast moving world,
Attuned to real greatness . . . and more.
Its banner of youth is now proudly unfurled . . .
Good luck, Class of '74.
